### Ukrainian Doc Preview programme:

Before the showcase, all the participants undergo a training to prepare (preliminary dates: 15-17 March 2021).

By 15 March, the participants provide the final versions of the presentation videos (a trailer of up to 4 minutes and a video fragment from the film's rough cut of up to 15 minutes with subtitles in English), which are then sent to the experts together with other materials about the project.

The projects will be presented on 29 March. The participants should be prepared to show both the trailer (up to 4 minutes) and a video fragment from the film's rough cut (up to 15 minutes).

During the showcase the participants take part in a moderated discussion together with experts present at the roundtable. Each roundtable will involve the project team, a moderator and experts. Up to 2 members of the creative crew can participate in the presentation, and the presence of the director or the producer of the film is mandatory.
